CompleteSafety
 OCCUPATIONAL EYE WEAR

Statement of Policies and Procedures

Warranty:

The Total Safety Program includes free replacement of any defective product at no charge for a period of one year from the date of purchase if any of the following occurs:

- Lens breakage
- Frame breakage
- Peeling, Crazing, or Other Failure of any coating
- Corrosion of any frame component
- These warranties are made assuming normal use and appropriate care of eyeglass frames and lenses given customer's customary job functions. They assume no excessive or abnormal use or abuse. We ask that the customer supplies the defective product with a request for warranty.

Policies and Procedures for Eye Wear:

We will process any change via telephone if we receive a call from the eye care professional's office.

- We will replace any prescription or order change one time at no charge if the change is equal to or less than the original order. For upgrades, the customer will be charged only the difference between the original order and the upgrade. We ask that any changes be requested within 30 days of receipt of the glasses.
- Changes to the prescription after 30 days will be charged at 50% of the original price.
- We provide a **one-year, one-time remake** warranty on the Super Scratch coating.
- We will replace the prescription of any progressive lens wearer who is not able to adapt to a progressive lens wear within 60 days of shipment of the lenses.
- We will fill any valid prescription for eyeglasses that is less than 2 years old, unless prohibited by applicable state law. We ask our customers to visit their eye care professional regularly.
- Due to safety concerns and ANSI standards, we are unable to put new safety lenses in a used frame. Customers may provide a new, unused, ANSI approved safety frame in original packaging for use in safety glasses. There is no charge to use a customer's new frame. This frame must be able to hold prescription lenses. Please call with questions.

Version 2.0 06/27/2016 Supersedes all previous versions
